Excitement at Baltimore.

BALTIMORE, Nov. 6.—The excitement in this city over the election was high. All along the streets in the vicinity of the newspapers offices have been thronged with eager voters for the "latest" from New York, making traveling extremely difficult, and the presence of a cordon of police necessary to keep the street cars and vehicles moving. Business is greatly neglected, the people having, apparently, no time to do anything but talk about the probabilities and possibilities in New York, and to scan the "latest" boards. The Democrats look upon the Democratic papers for correct news from the Empire state, while the Republicans rivet their gaze upon The American (Republican) building, and are greatly encouraged by the persistent claim of a paper that "New York has gone Republican." The Democrats are perfectly well with enthusiasm, and assert that the claims of the publishers are ridiculous. The streets have been jammed all day by companies of men and boys, some of them bearing at their heads effigies of Blaine, decorated with black ink and odor hanging from his arms. This evening about 2,000 men paraded the city streets, carrying effigies of Blaine, which were attached pictures of Cleveland and addresses. They marched by the cotton house, where a crowd of Republicans are gathered. The paraders cheered for Cleveland, while those around the cotton house were equally enthusiastic for Blaine. One Republican let his temper get the better of him and struck Fritz Backner, a prominent Fourth ward politician, on the head with a Billy, telling him that if he did not stop he would also be knocked down, but beyond those two were collisions. During the afternoon the anti-American Blaine and Logan banner at Baltimore and North streets was cut down several times.

To-night the excitement is on the increase, and the temper of the people is such that the marshal of police has ordered the newspapers to display no more balloons. About midnight the police again made thus far breaches of the peace.

Everybody's Suffocation at Chicago.

CHICAGO, Nov. 6.—The excitement in this city, today, has been intense, but adherents of both parties have been amicably good-natured, and a dozen times since noon great parades throng in front of the Tribune building, passing a passageway for democratic parades. The newspaper offices have been besieged by thousands; the hotels, headquarters of the state committees, have been thronged with visitors, and business has to a large extent, been suspended. Chairman John H. Oberly, of the Democratic state committee, was recognized by a sign, who, after giving vent to opprobrious remarks, gave a trifling receipt to go in to see the venerable chairman when an officer arrived and conveyed the man to the station. About eight thousand of Democrats and Republicans are going through the principal streets, cheering, while the other standard bears positive on either side that the war was theirs. An immense throng was thronged in front of the Inter Ocean building, where the returns were bulletined until late in the night. It was estimated that there had 988 plurality in New York, and in other precincts to hear from, there was a continuous roar of cheers and blast of horns five minutes.

The excitement had greatly increased. Great crowds were going through the streets yelling "No more 'G.'—" "You can't let us out again." An extra force of police was ordered on duty in the center of city.

Hundred of the "Reds."

MILWAUKEE, Nov. 6.—A hundred of 2,000 persons surrounded the newspaper bulletins this evening. The demonstrations, as favorable or unfavorable bulletins appeared, were more passionate than on Tuesday evening. On account of the fact that the National Republican committee, The Journal and edition and bulletins declaring Blaine elected. Several young men began burning copies of the paper in the street in front of the Journal office, and six of them were arrested for violating the city ordinance forbidding bonfires. One other was arrested for resisting the officers.

The Cleveland man soon showed a picture of their candidate, William McKinley, charged on this and tore it apart. On receipt of the manifesto of the Journal, the Cleveland man made a rush for the bureau driven back by the police, and was taken off the offensive, and returned to the Journal office. The different crowds then contented themselves with gray-one another and cheering their candidates. The crowds were continually diminishing, and at 11 o'clock the bulletin board deserted. The Journal, Herald, Tribune and others, issued hourly editions up to midnight.

Excitement City in Suspense.

SAN FRANCISCO CITY, Nov. 6.—The excitement over the presidential election is still in its intensity and suspense surrounding and attending the Hayes-Tilden campaign.

—To Blaine.

—Then Cleveland.

—And then again Blaine.

—So it goes all day and night.

—With large crowds around the bulletin boards.

—All eager to get the final result in the Empire state.

—The east side fire steamer was out last night, filling the fourth ward cistern.

—Rock River encampment No. 3, I. O. O. F., occupy Odd Fellows hall this evening.

—The uncertainty of the result of Tuesday's election has paralyzed all business in this city.

—Oliver Branch Lodge No. 34, A. O. U. W., held their regular meeting in their hall, Luppins block, this evening.

—People's Lodge No. 490, I. O. G. T., met in regular weekly session this evening, Court Street M. E. church block.

—Rhove Barry was fined five dollars and costs to-day, in the municipal court, and in default of payment, sent to jail for five days, for committing an assault on Jerry Leahy.

—Take a rest from the cares that infest the day, and spend an evening of pleasure at the bazaar, in the Guards' armory. Do not abandon hope, there may be yet chance for rejoicing, as your "hooky number" may yet appear.

—The Rock county Sunday school association which convened at Emerald Grove Wednesday and Thursday, was well attended and the session was interesting and instructive. A full report of the meeting will be published in a few days.

—Mr. Charles Atwood received a large amount this morning from Madison, to use in case a demonstration is held in this city over the result of the election—republican of course; but should the result be otherwise, Charles says the democrats are welcome to burn their powder in it.

—The annual session of the Wisconsin Conference of Unitarian and Independent churches will be held in All Souls church, this city, Tuesday, Wednesday and Thursday, November 13th, 19th and 20th. Programmes will be sent on request, by addressing the pastor, Rev. H. Tamba Lyche.

—Mr. Ebra Corwin, died at one o'clock this morning, aged 90 years. Deceased had been a resident of Janesville for many years, and was well known and highly respected. The funeral will take place at his late residence, Mineral Point avenue, on Sunday afternoon. Further particulars to-morrow.

—Mr. George Hookeman, of the Indiana saloon, is not a showman, but nevertheless he is the proprietor of a museum as well as a few living wild animals. His den of trained alligators, which number no less than three, are worthy of inspection by admirers of this breed of birds. Go and see them, they are lively specimens.

—The complimentary party tendered to the members of W. H. Sergeant Post No. 20, G. A. R., by the Bower City Rifles, will take place at the Rifles armory, to-morrow evening, and the arrangements are completed for a pleasant and social time. At a special meeting of the Bower City Rifles, held last evening, the invitation from the post was accepted, and the company decided to appear in full dress uniform. Every member of the post and his family is expected to be present, and the members are expected to wear their badges.

OBITUARY.

CAROLINE ROBBINS.

Wife of Mr. Thomas Robbins, died at her home in Jefferson, on November 4th. The deceased was a daughter of Mr. Wm. Winkley, Sr., of this city, and sister of Mr. William Winkley, Jr., and Mr. Henry Winkley, of Emerald Grove. Two other brothers Benjamin and Robert reside in California, and a sister, Mrs. Jos. Barnfield, in this city. She leaves a family of five children, Mrs. Fannie Cobb and Harry Reynolds, of Janesville; Anna Eustis, of Oakland; John W. Reynolds, of Bolot; and Louisa A. Reynolds, of Jefferson. The deceased was born in Lincolnshire, England, February 11th, 1829, and was buried in Jefferson, Wis. Nov. 6th, 1884. She came to America in 1852.

"Bozenta" at Prentice & Evenson's.

Personal.

—Mr. and Mrs. Wm. Winkley, of Cornelia street, second ward, went to Jefferson to-day to attend the funeral of the late Mrs. Thomas Robbins. The deceased was a sister of Mr. Winkley, and mother of Mr. H. C. Reynolds, of this city.

—Mr. Wm. Foy, of the firm of Foy & Bro., of Harvard, Ill., is in the city renewing old acquaintanceship, and it keeps him busy. If his physical condition and social qualities are an evidence of success in business life he certainly stands at the top.

—"Had rheumatism for years—took half a bottle of Atchafalpa and have not had a pain since." E. D. Hitchcock, Westville, Ct.

"Bozenta" at Prentice & Evenson's.

The sixth annual meeting of the Janesville Guards was held in the ladies' room at the armory last evening and the following civil officers were elected:

President—John G. Rexford.

Vice President—Frank E. Farnsworth.

Secretary—John Menzies.

Financial Secretary—H. D. Murdoch.

Treasurer—J. L. Bostwick.

The Guards will give their sixth annual ball during this month, the date is not yet fixed.

The Weather.

At seven o'clock this morning the thermometer registered 33 degrees above zero. Clear with south wind.

At one o'clock p. m. the register was 34 degrees above zero, clear with west wind.

For the corresponding hours one year ago the register was 36 and 41 degrees above zero.

Every flavor that Dr. Price has made has the peculiar taste of the fruit from which it is obtained, and are so true to nature that their use leaves nothing to be desired. We have yet to hear of the cook who has used Dr. Price's Special Flavoring Extracts, that was not delighted with them. No natural flavors, none compare with Dr. Price's.

A NEW ENGINE.

Purchase of a New Steam Fire Engine by the City.

The Proposition of Our Fire Committee Accepted by the Board of Aldermen.

This morning a dispatch was received from the Boston fire engine works at Waterford, New York, accepting the proposition sent them by our fire department committee, for the purchase of a new engine to take the place of No. 2, of this city. Now that the proposition has been accepted, the people, undoubtedly, will take interest in reading what the engine is to be, and for the purpose of giving them the full details, we publish the full correspondence. The common council instructed the committee on fire department to correspond with the Boston engine works, and other steam engine builders, first to ascertain what it would cost to repair our old No. 2 engine; second what a new engine of the same capacity of the old one would cost, and what they would allow for the old engine, towards paying for a new one. The committee, consisting of Ald. James B. McLean, Chas. A. Potter and S. C. Burnham, drew up a letter and sent copies to the Boston, the Auburn (or Latta), and the Amesbury engine builders. The only firm making a proposition to repair the old engine was the Boston company, and was \$1,600. At the same time they offered a new engine for \$4,000, allowing one thousand dollars for the old one. The Amesbury company did not want the old engine, but offered one of similar capacity and weight for \$4,250. No proposition was received from the Auburn company, although they replied that their agent would be here to make a proposition, which he failed to do. At the last meeting of the council Ald. McLean made a report to the council, of these facts, and the committee was further instructed to continue the correspondence with the Boston company, and if better terms could be made, to close the bargain with them for a new engine, provided that upon receiving the engine in this city, the common council be satisfied with its works. This action was taken after the matter of repairing the old engine had been thoroughly discussed and investigated, showing that the difference between the cost of repairing and a new engine would be only one thousand dollars at most. The proposition of the Boston engine company was that they would sell the city the new engine, as further described in the correspondence, for \$4,000, delivered on the car at Waterford, and allow the city \$1,000 for the old engine delivered at Waterford. The committee, after the council adjourned last Monday evening, instructed Mr. Barnham to send the following proposition to the Boston company:

JANESVILLE, Wis. Nov. 4, 1884.
Boston Fire Engine Company, Waterford, N. Y.

GENTLES: By vote of the common council, I am authorized to make you the following offer. We will give you \$3,000, and our Boston engine in exchange for a new engine of your make as described on page 20 of your catalogue of 1884-85, and furnished with supplies as stated on page 25 of same catalogue and in addition a gang. The boiler to be covered with nickel plated brass, no trimmings. You to deliver the engine in this city free of expense to us, and take our engine here, provided that your engine shall prove satisfactory as per statement in your letter of October 23rd, '84, otherwise the city shall not be under any obligation to take the engine. Answer by telegraph.

Respectfully,
S. C. BURNHAM,
of Fire Department Committee.

The statement in the letter of October 23rd, referred to above, reads: "We guarantee all we say in our book about our engines, and will take one to Janesville to be accepted only on condition of its giving entire satisfaction."

This morning the following dispatch was received:

WATERFORD, N. Y., Nov. 7.
S. C. Burnham, of Fire Committee:
Your offer is accepted. Specifications sent you by mail to-day.

BOSTON FIRE ENGINE CO.

The following, relating to the capacity of the engine, is taken from the book (pages 20 and 25) referred to in the correspondence:

Weight exclusive of supplies, about 6,000 lbs. Length not including tank, 20 ft. 6 in. Extreme height, 10 ft. 6 in. Diameter of boiler, 4 ft. 6 in. Diameter of cylinder, 18 in. Diameter of piston, 18 in. Diameter of discharge pipe, 2 1/2 inches. Number of discharge pipes, 2. Number of horizontal nozzles, 6. Number of vertical nozzles, 2. Capacity in gallons per minute, 100 to 150. Guaranteed distance through 100 feet of hose, 200 to 300 feet. By using two lines of hose 600 feet long or less, connected for a single stream at the end, this engine is warranted to throw water through a 1 1/2 inch nozzle more than 200 feet.

Two of these engines, with suitable connections and hose, will throw water through a 1 1/2 inch nozzle, more than 300 feet.

GENERAL SUPPLIES.

All our engines are furnished with a boiler feed pump, automatic "pop" safety valve, stand pipe with glass water gauge, whistle, two blow-off cocks, a surface cock, variable exhaust valve, two steam pressure and one water pressure gauges, steam cock, dumping grate, ten feet of small hose with connections for steam or water, three hand lamps or torches as may be preferred, hung so as to light the gauges, a brass oiler, a powerful brake, a key for playing two streams with a single line of hose, a hydrant or plug connection, a poker, a hand shovel, a full assortment of 4 or more nozzles, wrenches, spanners, and a complete set of tools for operating the engine. The boiler is of sufficient capacity to generate all of steam that can be used, when running with 100 pounds of steam pressure. It is lagged with wood perfectly protected from fire, and covered with Russia iron, German silver, or nickel plated brass handily trimmed with Princess metal spinnings. The air chamber and all the working parts are polished. The running gear is painted any color desired and striped in gold. The engines

as thus far described are complete fire engines, are handsome and efficient; but we will furnish, at additional cost, such extras in the way of additional or ornamental as may be desired.

The boiler is made of the best steel boiler plate, and is hand-made; the flues are pure copper and protected from external injury, and it can be taken apart and put together without removing rivets.

The engine, complete, is entirely different in construction to the one now here—crane neck, two steam cylinders and pumps, no balance wheels or cranks, cross-heads, and is a very handsome looking engine.

The engine will not be ready for delivery before the first of January.

November Weather.

Manelli's Planetary Storm and Signal, contains the following predictions for November:

"Mercury in superior conjunction with the sun the 4th, and in descending node the 5th, and in its aphelion the 10th and in a longitudinal line with Mars the 23d; Venus is in a like line with Jupiter the 23d; Venus is in its perihelion the 18th, and in conjunction with Uranus on the 3d.

The principal planetary disturbing positions for November are located from the 2d to the 5th, 13th to 17, the 19th, and the 23d to 25th.

The worst storm and earth disturbing days should occur about the 2d to 5th—Sunday to Wednesday.

13th to 17th—Thursday to Monday.

19th—Tuesday.

23d to 25th—Wednesday to Friday.

REMARKS.—The temperature may be a little above the mean of the season during the last half of the month. The three storm periods of the month are likely to supply us with some lively gales—those from the 2d to 5th, and from the 13th to 17th, and again from the 23d to 25th. Those from the 2d to 5th will probably be cold storms. Sun spots will probably be developed upon the sun to some extent during the last half of the month.

The United States signal service will probably order hoisted the most justifiable cautionary marine signals for the following dates: The 2d to 5th, the 13th to 17th, the 19th, and from the 23d to 25th or 26th.

Margaret Mathers as Juliet, in "The Hunchback."

On Tuesday evening next, our citizens will have an opportunity to witness Margaret Mathers' rendition of "Juliet" in "The Hunchback," and should not fail to fill the opera house. The Boston Globe, of February 24, 1884, says:

"One of the oldest and most capable of English actors is John Townsend, who is now living in honorable retirement in the dominion, but still entertains the highest interest in all that pertains to the stage. With his recollections of famous actresses at home, he could not believe that Margaret Mathers, with but little more than a year's experience behind her, could justify the commendations lavished on her. With true British obstinacy he would not go to see Miss Mathers during her Toronto season, but he did yield to the persuasions of Hamilton friends, and to write her for Juliet. The old actor's heart was conquered, as the following letter, written to her manager (whom he does not know), bears evidence: "I cannot refrain from expressing my great admiration of Miss Mathers' Juliet. During the last fifty years I have seen nearly all the Juliet's of note, including Miss Helen Fancit (Lady Theodore Martin), Mrs. Charles Kean, Madame Montague, Susan Cushman, Helen Bray, Adelaide Neilson, and a host of others. Miss Mathers' Juliet, in grace, personal charm, power, refinement and well-nigh elaborate finish, is worthy of great commendation, and will, to my thinking, bear favorable comparison with any I have seen. It promises, are long, to outshine them all. Whether in the passionate scenes of love, rage, tenderness or despair, Miss Mathers was fully equal to the occasion, and won all hearts by her artistic excellence. Surely a brilliant career is before this talented and accomplished young lady."

An Important Discovery.

The most important discovery is that which brings the most good to the greatest number. Dr. King's New Discovery for Coughs, Croup, and Colic, will preserve the health and save life, and is a priceless boon to the afflicted. Not only does it positively cure consumption, but coughs, colds, bronchitis, asthma, hoarseness, and all affections of the throat, chest and lungs, yield at once to its wonderful curative powers. If you doubt this, get a trial bottle free, at F. Sherer & Co.'s drug store.

The Attorneys in our Circuit Court.

The following is a complete list of the attorneys having cases in the present term of the Rock county circuit court:

Winans, Fethers & Jeffris,
Sale & Pierce,
A. A. Jackson,
Smith & Phelps,
Pease & Rager,
Hyer & Clark,
J. B. Doe, Jr.,
A. Hyatt Smith,
Street & Lane,
J. W. Bates,
John C. Root,
J. B. Dorr,
H. H. Blanchard,
Page & Ossa,
Carpenter & McGowan,
Buckley & Wickham,
G. G. Sutherland,
John M. Whitehead,
Norcross & Danwidde,
O. M. Seaman,
S. J. Todd,
B. E. Eldridge,
T. J. Emmons,
H. McElroy,
B. M. Malone,
A. S. Spooner,
Bates & Nichols,
David L. Mills,
M. S. Frichard.

Now is the time to treat catarrh of long standing. Ely's Cream Balm relieves obstinate cases, where other remedies fail. It is the relief you seek. Price 50 cents.

Apply into the nostrils with the finger. A caution—Dr. Ely's Cream Balm is a remedy for Catarrh, Hay Fever, etc. He was so earnest in asserting it to be a positive cure (himself having been cured by it) that I purchased a stock. The Balm has already effected cures. P. P. Hyatt, M. D., Bordentown, N. J.

After having used a large number of preparations for Catarrh, I have become satisfied that of them all Ely's Cream Balm gives out the most relief. I can tell it to be to any one who may have Catarrh, Cold in the head or Hay Fever. S. B. Lewis, Principal Graded School, Clinton, Wis.

STILL IN DOUBT.

The Result of the Great Contest Unfolded.

The Democrats Growing Jubilant at the Prospects of Success.

New York Still Claimed for the Republicans.

Special to the Gazette.

CHICAGO, Nov. 7—4 p. m.—The excitement in Chicago over the election is unabated, and thousands of people fill the streets in front of all newspaper offices. The democrats are intoxicated with joy over their special dispatches announcing that Cleveland is elected, and many republicans are still firm in the belief that Blaine will carry New York. The New York Tribune still claims the state, while the Albany Journal, official republican paper of state, concedes it to Cleveland. Associated Press dispatches give state to Blaine by nine hundred while county returns to secretary of state reverse this and give Cleveland one thousand. General judgment is that republicans have lost the state, but hope will not be abandoned till cold figures show a clear plurality for Cleveland. Jay Gould congratulated Cleveland on his election, and so does Vanderbilt.

SULLIVAN NO. 1.

New York—Jay Gould, this morning, sent the following to Governor Cleveland: "I heartily congratulate you on your election. All concede that your administration as governor has been wise and conservative, and in the larger field, as president, I feel that you will do still better, and that the vast business interests of the country will be entirely safe in your hands."

SULLIVAN NO. 2.

New York—Owing to diversified opinion as to the correctness and manner in which the returns from this state have been received and mutilated by the associated press, it has invited a committee from both the democratic and republican national and state committees, and the newspapers of the city to visit its offices this afternoon and examine its returns as received direct from the various districts throughout the state, and also its mode of tabulating them, and to assist in re-tabulating them.

The Tribune still claims Blaine has carried the state. Printing house square, in front of its office is packed with people. Returns received by the associated press from four more districts, will indicate that it votes received by these districts is correct. Blaine plurality in the state will be about 900, while the vote by counties so far as received will indicate a reversal of figures giving Cleveland about 1000.

All baneful infections of the blood are promptly removed by Ayer's Sarsaparilla. Sold by all druggists.

The "Juniata" Good Angel.

"(Publishing Dispatch.)"

"Oh, mercy! Let's go down quick. I wouldn't stay up here an hour for a farm," exclaimed a young lady who caught sight of a heavy old-fashioned scampering over an editorial's desk.

"Why, what's the matter? Isn't this the sanctum you have so often wanted to see?" said the editor, rather surprised at her coming to get away, after having been up a whole time.

"These are wild days, and you just let them run over your paper and on your clothes and everything else, and I don't want to be here," she said, and hurried out of the room.

"There," and he looked a couple of days out of his head, "these are our nightingales, our beautiful conservators of health. They are the great signs of a new era, and they are so suddenly disappearing. I would to see some dreadful source of calamity was going to fall on the place, and I would the devil I found a spot where the continent fell at home."

"You don't do it but once over you?"

"My dear child, it was every bit or more or other harmful waste that is lying about it is a dangerous waste business. It is to destroy himself. These, when absorbed into the system, are very deleterious to health. So, you see, we have a motive in keeping our good terms with the cookery. He is the laundress of the newspaper office."

"Well, I think I'll go anywhere, as I want to get the next card."

What Will-Here Tell Us.
